

VARAN Bus Connection Technology

Prefabricated Connector Cable

VARAN bus connection cable for
DRAG CHAIN wiring

Prefabricated 4-pin, flexible system cable for the drag chain (IP20 area), tested for its industrial suitability. The connector cable is recommended for the IP20 area by the VNO (VARAN BUS USER ORGANIZATION), since real-time Ethernet in industrial automation requires higher quality and robustness for cables and connectors than office Ethernet.

VARAN bus connection cable **for drag chain application**
2x RJ45 industrial, 4-pin, overmolded housings, prefabricated

Connector	2x HARTING RJ Industrial IP20 Data with overmoulded housings	
Cable type	drag chain system cable 4-pin, 2x2xAWG22/7, double shielding	
Protection type	IP20 (when mated)	
Sheath	PUR green	
Mating interface	2x RJ45 in accordance with IEC 60603-7	
Length		Article number
1.5 meters		16-910-015
3 meters		16-910-030
5 meters		16-910-050
10 meters		16-910-100
20 meters		16-910-200
50 meters		16-910-500
