

LSE VNCClient

The VNCClient Add-On is a VNC client with simple to operate basic functions and enables access of a remote VNC server to mirror its display in the SIGMATEK system.

Depending on the VNC server display size, the screen area can also be scrolled.

This Add-On contains the program elements for the LASAL CLASS project, as well as the LASAL SCREEN projects for multiple resolutions.

FEATURES

- Configuration of the VNC server
- Connect and disconnect with a VNC server
- Scrolling in two different step widths and directions
