

The EM82.3 Server Library provides a liquid silicone rubber dosing system (LDS) in accordance with the Euromap 82.3 standard. The SIGMATEK system works as an OPC UA server. The Euromap 82.3 standard describes a uniform interface between injection molding machines and liquid silicone dispensing systems (LDS).

OPC UA clients of all kinds can connect to the SIGMATEK server to read status information, set setpoint values, receive alarms and much more.

- OPC UA-based interface for liquid silicone dispensing systems (LDS)
- Alarm transmission
- Prefabricated data point objects for data storage
- Secure communication via SSL encryption
